

FIT2095

e-Business software technologies

- Week 4 - Workshop Quiz
- 3 Questions

Question 1 (10) marks

You are building a web app that uses Express.js and you want to log all the incoming request in a short format automatically. What are the steps to do that?

- You are not supposed to write 'full source code'.
- Support your steps with commands or/and statements

Question 2 (10)

What are the differences between `res.sendFile()` and `res.render()`?
Support your answer with examples

Question 3(25)

Using Node.js and Express, develop a web app (server side only) that has the ability to:

- render HTML files
- Serve static assets in a directory named 'public'
- Respond with a string contains the current date for any request with pathname='/getdate'
- Respond with a string contains the current time for any request with pathname='/gettime'
- Example:
 - <http://localhost:8080/getdate>
 - <http://localhost:8080/gettime>
